VOLUME 51 INDEX BY BODY SYSTEM

BILIARY TRACT, LIVER, SPLEEN AND PANCREAS

Vol: Page

The imaging diagnosis of hepatic schistosomiasis japonicum Sequelae	51:51
Agenesis of the dorsal pancreas: a cause of diagnostic error on abdominal sonography	51:145
Liver transplantation: dynamic contrast-enhanced magnetic resonance imaging of the hepatic vasculature	51:191
Osteosarcoma metastatic to the pancreas in young patients	51:293
Biliary distensibility during per-operative cholangiography as compared to pre-operative ultrasound: a four year follow-up study	51:338
Pseudotumours of hepatic imaging	51:362
Pseudoglandular hepatocellular carcinoma: discrepancy between CT and MR findings	51:379
T2 relaxation times of hypervascular and non-hypervascular liver lesions: do hypervascular lesions mimic haemangiomas on heavily T2-weighted MR images?	51:401
Hyperattenuating rim on noncontrast CT of the liver: probable peritumoural sparing of fatty infiltration	51:406
Mn-DPDP enhanced MR imaging of the liver: analysis of pulse sequence performance	51:484
A migrating biliary wallstent: an unusual complication	51:519
Gadolinium-DTPA enhanced echoplanar MR imaging of the liver: preliminary observations	51:545
Increased reflectivity of the pancreas in rare hereditary pancreatic insufficiency syndromes	51:575
Sonographic prediction of a normal or abnormal ERCP in suspected AIDS related sclerosing cholangitis	51:618
Hepatic adenoma with nodule-in-nodule appearance: CT and MR findings	51:662
Solid and papillary neoplasm of the pancreas: radiological-pathological study of five cases and review of the literature	51:702
Variceal haemorrhage due to polycystic liver treated by transhepatic intervention	51:732
A comparison of fast and conventional T2 weighted spin-echo sequences in the detection of focal liver lesions at 1.0 T	51:769

BONES, JOINTS AND SOFT TISSUES

Temporomandibular joint imaging	51:1
MRI characteristics of chondroblastoma	51:22
Elastofibroma dorsi: a pseudomalignant lesion	51:67
Juvenile chronic arthritis of the hip: value of contrast-enhanced MR imaging	51:99
Milk of calcium complicating juvenile dermatomyositis - imaging features	51:147
Magnetic resonance imaging of intramuscular haemangiomas with emphasis on contrast enhancement patterns	51:198
Dysosteosclerosis: a unique entity	51:224
Magnetic resonance imaging of the knee: assessment of effectiveness	51:245
Magnetic resonance imaging of the knee: diagnostic performance statistics	51:251
The relative contribution of disc and vertebral morphometry to the angle of kyphosis in asymptomatic subjects	51:258
Detection of occult wrist fractures by magnetic resonance imaging	51:285
Osteosarcoma metastatic to the pancreas in young patients	51:293
Myolipoma or liposarcoma - a mistaken identity in the retroperitoneum	51:295
Multiple lytic lesions in HTLV1 associated ATLL in the absence of lymphadenopathy and peripheral blood changes	51:299
Imaging of primary osteosarcoma of the spine	51:325
Brucella osteomyelitis of the pubic bone	51:368
Fibroma of tendon sheath in the distal forearm with associated median nerve neuropathy: US, CT and MR appearances	51:370
Metastatic dedifferentiated chondrosarcoma	51:373
The MR appearances of primary intramuscular hydatid disease	51:377
CT findings in necrotising fasciitis - a report of four cases	51:429
The CT demonstration of soft tissue involvement in multicentric reticulohistiocytosis	51:440
Advantages of an increased dose of MRI contrast agent for enhancing inflammatory synovium	51:487
Multiple rice body formation in chronic subacromial subdeltoid bursitis: MR appearances	51:511
Fat suppressed contrast enhanced MR imaging in the assessment of sacroiliitis	51:554
Is the metacarpal index useful in the diagnosis of Marfan Syndrome?	51:570
Improving the detection of radiographically occult ankle fractures: positive predictive value of an ankle joint effusion	51:632
Is the acquisition of a separate view of the sacroiliac joints in the prone position justified in patients with back pain?	51:637
Axial radiography or CT in the measurement of patellofemoral malalignment indices in children and adolescents?	51:639
Unusual imaging findings in association with spinal osteoblastoma	51:644
Hypertrophic osteoarthropathy in staging skeletal scintigraphy for lung cancer	51:694
Sonographic diagnosis of biceps tendon dislocation	51:737
MRI of Klippel-Trenaunay Syndrome: use of the short tau inversion recovery (STIR) sequence	51:813
Lateral down-sloping of the acromion: a useful MR sign?	51:869
MR imaging of tibial plateau fractures	51:873
Tumoral pseudogout of the hip joint	51:889

BREAST

Is ipsilateral mammography worthwhile in Paget's disease of the breast?	51:35
Paraffinomas of the breast: mammographic, Ultrasonographic and radiographic appearances with clinical and histopathological correlation	51:130
Mammographic features of unilateral breastfeeding	51:134
The positive predictive value of mammographic signs: a review of 425 non-palpable breast lesions	51:277
Mammographic features of breast tuberculosis: the skin bulge and sinus tract sign	51:354
Use of resistance index for the diagnosis of breast tumours	51:418
Pure mucinous breast cancer - mammographic and ultrasound findings	51:421
Magnetic resonance imaging guided breast biopsy using a frameless stereotactic technique	51:425
Intracystic papillary carcinoma of the breast in a male patient	51:438
Haemangioma of the breast - appearances on mammography and ultrasound	51:523
The impact of core-biopsy on pre-operative diagnosis rate of screen detected breast cancers	51:562
Descriptive terms for mammographic abnormalities: observer variation in application	51:709
Mammographic and ultrasound appearances of Kaposi's sarcoma of the breast	51:735
MR imaging of fat necrosis of the breast associated with lipid cyst formation following conservative treatment for breast carcinoma	51:815

CARDIOVASCULAR

Three-dimensional time-of-flight MR angiography of the arch of aorta and its major branches: a comparative study with contrast angiography	51:18
Radial artery approach for outpatient peripheral arteriography	51:110
Blunt carotid arterial trauma	51:117
Transbrachial arteriography: indications and complications	51:205
Pulmonary arterial obstruction caused by recurrent tumour treated with endovascular stenting	51:228
Magnetic resonance imaging of pericardial constriction: comparison of cine MR angiography and spin-echo techniques	51:268
Recanalisation of all three infrapopliteal arteries by subintimal angioplasty	51:366
The significance of increased ¹¹¹ Indium platelet accumulation at post-angioplasty sites	51:507
Low femoral artery puncture: a cause of diagnostic error	51:515
Benign solitary schwannoma of the greater omentum: a rare cause of acute intraperitoneal bleeding – diagnosis by CT	51:517
Angiosarcoma in a patient with von Recklinghausen's disease	51:521
Upper extremity ischaemia secondary to ergotamine poisoning	51:589
Percutaneous biopsy of a right atrial angiosarcoma under ultrasound guidance	51:591
Migration and shortening of a self-expanding metallic stent complicating the treatment of malignant superior vena cava stenosis	51:593
Extensive calcified thrombus of the inferior vena cava	51:660
Asbestos related pericardial disease	51:656
Duplication of the superficial femoral vein: recognition with duplex ultrasonography	51:622
Recent advances in myocardial perfusion scintigraphy	51:677
Intra-arterial thrombolysis for the acutely ischaemic leg: experience in a district general hospital	51:714
Radiological intervention in Budd-Chiari syndrome: techniques and outcome in 18 patients	51:775
What are the indications for a carotid duplex scan?	51:801
Magnetic resonance angiography demonstration of congenital heart disease in adults	51:851
Mortality related to coronary angiography	51:858
MR venography of left renal vein anomalies	51:861

CENTRAL NERVOUS SYSTEM (INCLUDING SKULL AND SPINE)

MR imaging of neuronal migration anomalies	51:11
Primary malignant rhabdoid tumour of the brain	51:65
Transient unilateral cerebral oedema in hemiplegic migraine: MR imaging and angiography	51:72
CSF flow through third ventriculostomy demonstrated with colour doppler ultrasonography	51:127
Lhermitte-Duclos disease: enhancement following gadolinium-DPTA	51:222
Comparison of magnetic resonance angiography with conventional angiography in the detection of intracranial aneurysms in patients presenting with subarachnoid haemorrhage	51:330
Idiopathic duro-optic calcification – a new entity?	51:359
Magnetic resonance imaging in cerebral fat embolism	51:445
Sub-cortical white-grey matter contrast on MRI as a quantitative marker of diffuse HIV-related parenchymal abnormality	51:475
Computed tomography of the brain in acute carbon monoxide poisoning	51:480
Giant aneurysm of the intrapetrous carotid artery presenting as a cerebellopontine angle mass	51:587
Skull base erosion in nasopharyngeal carcinoma: detection by CT and MRI	51:625
Petrous internal carotid artery aneurysm: an unusual cause of eustachian tube dysfunction	51:658
Unusual imaging findings in association with spinal osteoblastoma	51:644
Magnetic resonance imaging of the brain. Neck and cervical spine in mild Hunter's syndrome (Mucopolysaccharidoses type II)	51:719
Post-traumatic cerebral fat embolism: CT and MR findings. Report of two cases and review of the literature	51:728
Spinal cord schistosomiasis: MRI findings	51:739
What are the indications for a carotid duplex scan?	51:801
Magnetic resonance imaging in the evaluation of cerebrospinal fluid fistulae	51:837
The spectrum of MRI findings in CNS cryptococcosis in AIDS	51:842

DIGESTIVE TRACT AND ABDOMEN

The unreliability of CT scans and initial chest radiographs in evaluating blunt trauma induced diaphragmatic rupture	51:27
Palliation of malignant tracheo-oesophageal fistula using covered metal stents	51:42
Spiral CT pneumocolon for suspected colonic neoplasms	51:56
Cine MRI in the diagnosis of a ruptured right hemidiaphragm	51:137
Transdiaphragmatic gastric herniation: a rare complication of CABG using the right gastroepiploic artery	51:143
Intraoperative ultrasound in colorectal cancer patients undergoing apparently curative surgery: correlation with two year follow-up	51:157
Globus sensation: value of static radiography combined with videofluoroscopy of the pharynx and oesophagus	51:177
CT evaluation of treatment response in advanced gastric cancer	51:214
Pseudomyxoma extraperitonei: an unusual presentation mimicking a huge hydronephrotic kidney	51:221
Transabdominal ultrasound detection of achalasia	51:297
PEG – is the E necessary? A comparison of percutaneous and endoscopic gastrostomy	51:341
Ultrasound of primary generalised AL amyloid of the small bowel	51:447
Endosonographic assessment of postpartum anal sphincter injury using a 120 degree sector scanner	51:559
A blinded clinical trial comparing conventional cleansing enema. Pico-salax and golytely for barium enema bowel preparation	51:566
Crohn's disease. Calculi and cancer: a report of two cases	51:651
The significance of colonic mucosal lymphoid hyperplasia and aphthoid ulcers in Crohn's disease	51:706
Multiple duodenal gastrinomas demonstrated with spiral CT	51:811
Minimal invasive therapy for advanced oesophageal malignancy	51:828

EAR, NOSE, THROAT, MOUTH AND EYES

The incidence and relevance of bone sclerosis in orbital pseudotumour	51:123
A comparison of ultrasound and plain radiography in the diagnosis of maxillary sinusitis	51:170
Globus sensation: value of static radiography combined with videofluoroscopy of the pharynx and oesophagus	51:177
The value of serial Doppler imaging in central retinal vein occlusion: correlation with visual recovery	51:411
Intraocular silicone oil for retinal detachment in AIDS: CT and MR appearances	51:415
Radiology of the masticator space	51:457

Ocular ultrasound	51:533
Skull base erosion in nasopharyngeal carcinoma: detection by CT and MRI	51:625
Petrous internal carotid artery aneurysm: an unusual cause of eustachian tube dysfunction	51:658
The sonographic appearance and significance of cervical metastatic nodes following radiotherapy for nasopharyngeal carcinoma	51:698
Helical CT of the larynx: a comparative study with conventional CT scan	51:882

EDITORIALS, REVIEWS, OPINIONS AND PERSONAL VIEWS

Temporomandibular joint imaging	51:1
Endoscopic ultrasound – current applications	51:83
Contrast-enhanced MR imaging	51:235
A guide to clinical epidemiology for radiologists: Part I study design and research methods	51:313
A guide to clinical epidemiology for radiologists: Part II statistical analysis	51:317
Colour Doppler energy (power) mode ultrasound	51:387
The role of radiology in the investigation and management of patients with haemoptysis	51:391
Radiology of the masticator space	51:457
Long-term effects of treatment of childhood malignancy	51:466
Ocular ultrasound	51:533
The current status of clinical PET imaging	51:603
The changing role of transrectal ultrasound in the diagnosis of prostate cancer	51:671
Recent advances in myocardial perfusion scintigraphy	51:677
Budd-Chiari syndrome	51:747
The characterization of liver tumours by MRI	51:749
Radiology of the carotid space	51:762
Internal iliac artery embolization in the management of pelvic bleeding	51:825

ENDOCRINE SYSTEM

Sonographic features of Hashimoto thyroiditis in childhood	51:167
--	--------

HAEMATOPOIETIC, LYMPHATIC AND RETICULOENDOTHELIAL SYSTEMS

MRI features of cervical nodal necrosis in metastatic disease	51:103
Lymph nodes in the hepatoduodenal ligament: US appearances with CT and MR correlation	51:160
The use of sonography in differentiating cervical lymphomatous lymph nodes from cervical metastatic lymph nodes	51:186
The sonographic appearance and significance of cervical metastatic nodes following radiotherapy for nasopharyngeal carcinoma	51:698

INTERVENTIONAL TECHNIQUES

Radial artery approach for outpatient peripheral arteriography	51:110
The pharmacokinetics and UK usage of heparin in vascular intervention	51:113
Percutaneous retrieval of gunshot pellet emboli from the crural arteries	51:140
Pulmonary arterial obstruction caused by recurrent tumour treated with endovascular stenting	51:228
PEG – is the E necessary? A comparison of percutaneous and endoscopic gastrostomy	51:341
Recanalisation of all three infrapopliteal arteries by subintimal angioplasty	51:366
Successful internal iliac artery embolisation with glue in a case of massive obstetric haemorrhage	51:442
A migrating biliary wallstent: an unusual complication	51:519
Percutaneous biopsy of a right atrial angiosarcoma under ultrasound guidance	51:591
Migration and shortening of a self-expanding metallic stent complicating the treatment of malignant superior vena cava stenosis	51:593
Fluoroscopically controlled retrieval of intra-uterine contraceptive devices	51:654
Radiological intervention in Budd-Chiari syndrome: techniques and outcome in 18 patients	51:775
Internal iliac artery embolization in the management of pelvic bleeding	51:825
Survival after embolization of the internal iliac arteries in ten patients with severe haematuria due to recurrent pelvic carcinoma	51:865
Transvenous embolization of a traumatic arteriovenous fistula	51:886

PAEDIATRIC

CT demonstration of intracranial bleeding in term newborns with mild clinical symptoms	51:31
Juvenile chronic arthritis of the hip: value of contrast-enhanced MR imaging	51:99
Milk of calcium complicating juvenile dermatomyositis – imaging features	51:147
Sonographic features of Hashimoto thyroiditis in childhood	51:167
Early management and postnatal investigation of prenatally diagnosed hydronephrosis	51:173
Long-term effects of treatment of childhood malignancy	51:466
An investigation into perihilar inflammatory change on the chest radiographs of children admitted with acute respiratory symptoms	51:614
Axial radiography or CT in the measurement of patellofemoral malalignment indices in children and adolescents?	51:639
Antenatal ultrasonic diagnosis of complete bladder duplication	51:817

REPRODUCTIVE SYSTEM

Patterns of supradiaphragmatic metastases in testicular germ cell tumours	51:273
Ultrasound imaging of the appendix testis and appendix epididymis	51:335
Successful internal iliac artery embolisation with glue in a case of massive obstetric haemorrhage	51:442
Endosonographic assessment of postpartum anal sphincter injury using a 120 degree sector scanner	51:559
Klippel-Trenaunay syndrome as a cause of erectile dysfunction	51:596
Fluoroscopically controlled retrieval of intra-uterine contraceptive devices	51:654

RESPIRATORY TRACT AND MEDIASTINUM

The unreliability of CT scans and initial chest radiographs in evaluating blunt trauma induced diaphragmatic rupture	51:27
Palliation of malignant tracheo-oesophageal fistula using covered metal stents	51:42
True massive thymic hyperplasia	51:62
Transdiaphragmatic gastric herniation: a rare complication of CABG using the right gastroepiploic artery	51:143
Pulmonary arterial obstruction caused by recurrent tumour treated with endovascular stenting	51:228

The pattern and distribution of calcified mediastinal lymph nodes in sarcoidosis and tuberculosis: a CT study	51:263
Patterns of supradiaphragmatic metastases in testicular germ cell tumours	51:273
Bilateral recurrent tension pneumothorax complicating combination chemotherapy for soft tissue sarcoma	51:302
Isolated lymphadenopathy on chest radiographs of HIV-infected patients	51:345
The utility of the frontal chest radiograph in the evaluation of chest drain placement	51:350
The role of radiology in the investigation and management of patients with haemoptysis	51:391
Ultrasound features of folded lung	51:433
Portable chest radiology in intensive care: a comparison of a new dual characteristic film-screen system (Insight) incorporating a flexible grid with a standard film-screen system	51:494
Is admission chest radiography of any clinical value in acute stroke patients?	51:499
CT-guided transthoracic needle biopsy: a comparison between automated biopsy gun and fine needle aspiration	51:503
Frequency-filtered image post-processing of digital luminescence radiographs in pulmonary nodule imaging	51:577
An investigation into perihilar inflammatory change on the chest radiographs of children admitted with acute respiratory symptoms	51:614
Air-trapping in extrinsic allergic alveolitis on computed tomography	51:684
High resolution computed tomography in HIV patients with suspected <i>Pneumocystis carinii</i> pneumonia and a normal chest radiograph	51:689
Pulmonary sarcoidosis mimicking cryptogenic fibrosing alveolitis on CT	51:807
Changes in cross-sectional area of the lungs on end expiratory computed tomography in normal individuals	51:804

TECHNIQUES, APPARATUS, CONTRAST MEDIA AND TRIALS

Antibiotic prophylaxis in patients undergoing radiological procedures who are at risk of infective endocarditis – do radiologists know what they are doing?	51:39
Endoscopic ultrasound – current applications	51:83
The pharmacokinetics and UK usage of heparin in vascular intervention	51:113
A simple non-invasive method for deflating a block Foley balloon	51:136
Transbrachial arteriography: indications and complications	51:205
Iodixanol in leg phlebography: a randomized, double-blind parallel group phase III trial comparing iodixanol to ioxaglate	51:210
Contrast-enhanced MR imaging	51:235
Colour Doppler energy (power) mode ultrasound	51:387
CT-guided transthoracic needle biopsy: a comparison between automated biopsy gun and fine needle aspiration	51:503
Low femoral artery puncture: a cause of diagnostic error	51:515
A blinded clinical trial comparing conventional cleansing enema, pico-salax and golytely for barium enema bowel preparation	51:566
The current status of clinical PET imaging	51:603
The use of antibiotic prophylaxis in radiology departments for patients at high-risk of infective endocarditis	51:649

URINARY TRACT

Renal granuloma following intra-vesical bacillus Calmette-Guerin	51:69
Early management and postnatal investigation of prenatally diagnosed hydronephrosis	51:173
Pseudomyxoma extraperitonei: an unusual presentation mimicking a huge hydronephrotic kidney	51:221
A three centre audit of IVU referrals in patients with asymptomatic microscopic haematuria	51:282
Endorectal MRI using a 0.5 T mid-field system in the staging of localized prostate cancer	51:550
Bladder leiomyoma – pre-operative diagnosis by transrectal ultrasonography guided needle biopsy	51:664
The changing role of transrectal ultrasound in the diagnosis of prostate cancer	51:671
Imaging of small cell carcinoma of the male urogenital tract	51:724
Dynamic cystoproctography and physiological testing in women with urinary stress incontinence and urogenital prolapse	51:785
Cystic renal cell carcinoma: radiological features and clinico-pathological correlation	51:791
Gonadal vein recruitment in renal cell carcinoma: incidence, pathogenesis and clinical significance	51:797
Antenatal ultrasonic diagnosis of complete bladder duplication	51:817
Survival after embolization of the internal iliac arteries in ten patients with severe haematuria due to recurrent pelvic carcinoma	51:865
A radiological approach to the through and through technique for percutaneous passage of ureteric strictures	51:879

MISCELLANEOUS

Antibiotic prophylaxis in patients undergoing radiological procedures who are at risk of infective endocarditis – do radiologists know what they are doing?	51:39
A review of the statistical analysis used in papers published in <i>Clinical Radiology</i> and <i>British Journal of Radiology</i>	51:47
Magnetic resonance imaging of intramuscular haemangiomas with emphasis on contrast enhancement patterns	51:198
Myolipoma or liposarcoma – a mistaken identity in the retroperitoneum	51:295
The MR appearances of primary intramuscular hydatid disease	51:377
CT findings in necrotising fasciitis – a report of four cases	51:429
Benign solitary schwannoma of the greater omentum: a rare cause of acute intraperitoneal bleeding – diagnosis by CT	51:517
MRI of Klippel-Trenaunay syndrome: use of the short tau inversion recovery (STIR) sequence	51:813
